MPERS Receives Award for 21st Consecutive Year

MPERS has applied for and received the Public Pension Coordinating Council's Public Pension Standards Award each year since 2004. The award is given in recognition of meeting professional plan design and administration standards.

To receive the Recognition Award for Administration, the retirement system must certify that it meets the requirements in five areas of assessment. Those areas are:

1. Comprehensive Benefit Program. The system must provide a comprehensive benefit program including service retirement benefits, in-service death benefits, disability benefits, vesting, and provisions for granting a cost-of-living adjustment.

2. Actuarial. An Actuarial Valuation must be completed at least every two years using generally-recognized and accepted actuarial principles and practices.

3. Audit. The system must obtain an unqualified opinion from an independent audit conducted following government auditing standards generally accepted in the United States.

4. Investments. The system must follow written investment policies and written fiduciary standards and the system must obtain an annual investment performance evaluation from an outside investment review entity.

5. Communications. Members must be provided a handbook or summary plan description, regular updates to the documents, and an annual benefit statement. Meetings of the governing board of the system are conducted at least quarterly with adequate public notice.

The Public Pension Coordinating Council is a confederation of the National Association of State Retirement Administrators (NASRA), the National Conference on Public Employee Retirement Systems (NCPERS), and the National Council on Teacher Retirement (NCTR).
